Company/Agency:	BLM	Time:	Not recorded
Address:	Battle Mountain	T-DCC Number:	G009E-C03-AES-T-020
		Reference No:	
Personnel Present:	Polly Quick	Phone Number:	775 635 4166

SUBJECT: Comments on draft text and Key Observation Points

SUMMARY

Polly Quick asked Rob Perrin for comments on package couriered to him on December 22, 2004.

Rob Perrin says wilderness study areas are Class I no matter what the Resource Management Plan says.

He doesn't think a wilderness study area within the vicinity can hold a project back. We should still do the analysis.

Consider the view when driving W on 6 from Warm Springs as come down grade at edge of FS land – there is an expansive view there where the alignment might be more noticeable than in other situations. In general, need to consider expansive views that might be affected.
